

FBO Infrared Fast Bake Oven

The Heatlight Infrared Drying System makes short work of drying finishes on wood & metal, providing instant heat & reducing drying time from hours to minutes

The Heatlight infrared drying system from Victory has been designed to meet the needs of busy manufacturers that need to quickly dry painted or coated wood and metal.

Victory has a long history of developing infrared products for a variety of industries, including automotive and plastics. This new system now draws on this experience to offer a much-needed solution for fast, efficient drying of finishes on wood & metal products such as doors, panels and window frames with minimal risk of contamination by dust.

Controllable heat

- Fast drying time
- Instant heat - no warm up time
- Mobile racking easily moved in and out of the oven

Typical Manufacturing Applications

- Manufacturers of Kitchen cupboards
- Door manufacturers
- Window Frame manufacturers
- Painted Component manufacturers

Reduce drying time from hours to minutes

Waiting for paint, varnishes and other finishes to dry slows down the manufacturing process, especially if products that need to be sprayed must wait for other items to dry first.

The Victory system means that the drying cabinet can be located away from the spraying or painting area. The mobile racking can be loaded with product and simply wheeled away, into the drying cabinet.

The system can be customised to suit customers' requirements.

Call 01727 815137 to discuss your requirement.

Standard FBO range

Code	Width (mm)	Depth (mm)	Height (mm)	Watts (W)
FBO1	1650	1100	2000	4 x 1500
FBO2	2200	1100	2000	4 x 1500

Voltage: 220-240V ~ 50-60Hz

Depending on your requirements, the wiring of the four cassettes can be designed for your needs.

Call 01727 815137 to discuss your requirement.

Supplied in a flat pack format with easy-to-follow assembly instructions, each Fast Bake Oven is supplied with 4 x 1500W heater cassettes — each mountable in three standard height positions for your own unique application.

The cassettes are fully dimmable, allowing you the flexibility to control your heat requirements for individual job.

The Fast Bake Oven is not supplied with any controllers as standard due to the many variable customer needs. However, optional controllers are available. Please call or email us to discuss your requirements.
