**TECHNICAL DATA SHEET – Leather Care Div.**

**HIGH GLOSS LEATHER PROTECTOR**

**DESCRIPTION**

Water-based protective and maintaining cream for leather, it gives the original glossy appearance of the leather, matted through use.

**HOW TO USE**

Unless the leather article is new, clean the leather with **Leather Cleaner**.

Shake the bottle. Apply on the cloth and massage with circulating movements. Let dry.

Can be further polished with light pressure. Do not rub! Recommended 2-4 times a year.

Do not use on suede/nubuck.

**Pre-test:** Dampen a soft white cloth with water only. Lightly rub the leather to see if color is transferred to the cloth. If color is removed with water, it is certain that any product will remove it. Do not use the protector, but contact a specialist.

If there is no colour transfer from water, repeat the test with **High Gloss Leather Protector** after shaking the bottle. Make sure you are satisfied with the result.

PHYSICAL CONSTANTS	Standard Value	Test Method
Appearance	Whitish liquid	MDA 008
Density (g/cm <sup>3</sup> )	0.96 ± 0.05	MDA 018

STORAGE	Rev.
Non-dangerous product. Store between +5/40°C	06.2015
