

URKI-GLOSS
 POLISHING COMPOUND

Edition: 020 2011/11
 Cod: 0200000020.00000.020

APPLICATION

URKI-GLOSS is an effective and high quality polishing compound designed for being used on any type of paint. Its formulation will eliminate quickly and effectively the cutting and sanding (P2500 - P3000) marks. A very high gloss level can be achieved, with a mirror effect. The solid and liquid ingredients of its formulation minimize the dust, reducing the pollution of the working area. High gloss with a medium cutting level. It can be used on freshly-repaired or old coatings. Does not contain silicones.

PHYSICAL PROPERTIES

Density at 20°C (g/cc)	1,00 ± 0,02
Grinding Fineness (μ)	No lumps
Supply viscosity at 20°C	Liquid
V.O.C. (g/l)	130 (2004/42/CE) IIB (A) (200)
Type of product	
Colour	White

APPLICATION INSTRUCTIONS

It is important to apply an adequate pressure on the polishing machine in the first passes on the surface for eliminating the marks and defects.

Polishing tool: soft sponge for polishing processes.

Do not use the cutting sponge. The remains are easy to clean. Clean with micro-fibre cloths.

Clean

P2500
P3000

1200-2000 rpm

Clean with a
micro-fibres cloth

STORAGE

Keep under cover in a cool and well-ventilated place avoiding direct sunlight. Temperatures between 5 and 25°C recommended. Can life: **2 years** from manufacturing in date its original unopened container. Consult our Technical Department once date has expired.
