TECHNICAL DATA SHEET – Leather Care Div.

CROSSLINKER AZ6

DESCRIPTION

Polyaziridine crosslinker for water-based systems.

HOW TO USE

CROSSLINKER AZ6 is a special polyaziridine crosslinker for both glossy and matt water-borne topcoats. When added to the final water-based topcoats, generally in a quantity between 1 and 3%, it strongly improves adhesion and wet-rubs in particular.

CROSSLINKER AZ6 can be added directly to the topcoats to be crosslinked, mixing carefully in order to obtain a homogeneous dispersion, or it may be prediluted with water before addition.

Topcoats containing CROSSLINKER AZ6 have a pot-life of 6-12 hours, depending on the type of polymers.

PHYSICAL CONSTANTS	Standard Value	Test Method
Appearance	Yellowish liquid	MDA 008
Active substances (%)	100	MDA 023
Density (g/cm ³)	1.07 ± 0.05	MDA 018

STORAGE

Store in a dry, cool, well ventilated area between +5 and 40°C. Close the container tightly. For safe use of the product, the information given in the safety data sheet should be carefully observed.
