TECHNICAL DATA SHEET – Leather Care Div.

LEATHER&TEXTILE ODOR REMOVER/ NEUTRALIZZATORE ODORI PELLE+TESSUTO

DESCRIPTION

Removes odors that have penetrated into the cushioning.
Leather & Textile Odor Remover is a product for removing unpleasant smells from sofa padding. Examples include if a dog habitually lies on the sofa, or you need to remove an odor left by cat urine.

HOW TO USE

Pre-Test: Dampen a white cloth with water only. Rub the surface lightly on a hidden spot to see if color is transferred to the cloth or if there is a color change in the surface once dry. If color is removed with water alone, it's certain that any product will remove color, so do not use the cleaner in such cases. If there is no color loss or change with water, do the same test with Leather & Textile Odor Remover, and ensure that you are satisfied with the results.

Directions: The product can be applied by spraying it on the surfaces or by injecting it into the cushioning. If the smell comes from the cushioning surface, spray the product directly over the affected area. If the smell is penetrated and absorbed into the cushioning, take a syringe and fill it with Leather & Textile Odor Remover. Afterward, insert the needle in various areas of the sofa and inject the product to dampen all the padding of the sofa. Leave to dry naturally.

PHYSICAL CONSTANTS	Standard Value	Test Method
Appearance	Yellowish fluid	MDA 008
Density (g/cm ³)	0.99 ± 0.05	MDA 018

STORAGE	Rev.
Non-dangerous product. Store between +5/40°C.	05.2022

MINIMUM SHELF-LIFE

The product is guaranteed for its physical and quality characteristics 24 months from the date of production. It has to be kept in its original packaging, well sealed and stored following the conditions in our technical data.
