

# SAFETY DATA SHEET FARGLO FLUORESCENT PAINT RED

SECTION 1: Identification of th	ne substance/mixture and of the company/undertaking
1.1. Product identifier	
Product name	FARGLO FLUORESCENT PAINT RED
Product number	FURED
1.2. Relevant identified uses of	f the substance or mixture and uses advised against
Identified uses	PC 9a: Coatings and paints, thinners, paint removers.
1.3. Details of the supplier of the	ne safety data sheet
Supplier	Axalta Coating Systems Huthwaite UK Ltd
	Blackwell Road
	Huthwaite
	Nottinghamshire
	United Kingdom
	NG17 2RL
	Tel: +44 (0)1623 510585
Contact person	info-huthwaite@axaltacs.com
1.4. Emergency telephone nun	nber
Emergency telephone	United Kingdom: 01623 528938 (Mon-Thu 0700 - 1600 hrs, Fri 0700 - 1245 hrs).
National emergency telephone number	Republic of Ireland: National Poison Information Centre (Ireland) Tel: 01 809 2566 (8am to 10pm)
SECTION 2: Hazards identifica	ation
2.1. Classification of the substa	ance or mixture
Classification (EC 1272/2008)	
Physical hazards	Flam. Liq. 3 - H226
Health hazards	STOT SE 3 - H335, H336
Environmental hazards	Aquatic Chronic 2 - H411
2.2. Label elements	
Hozard pictograma	

Hazard pictograms

Signal word

Hazard statements

¥2

Warning H226 Flammable liquid and vapour. H335 May cause respiratory irritation. H336 May cause drowsiness or dizziness. H411 Toxic to aquatic life with long lasting effects.

Precautionary statements	<ul> <li>P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.</li> <li>P271 Use only outdoors or in a well-ventilated area.</li> <li>P273 Avoid release to the environment.</li> <li>P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.</li> <li>P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing.</li> <li>Rinse skin with water or shower.</li> <li>P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.</li> <li>P370+P378 In case of fire: Use foam, carbon dioxide, dry powder or water fog to extinguish.</li> </ul>
	P370+P378 In case of fire: Use foam, carbon dioxide, dry powder or water fog to extinguish. P391 Collect spillage.
	P403+P235 Store in a well-ventilated place. Keep cool.
	P501 Dispose of contents/ container in accordance with national regulations.
<b>A</b> ( )	

Contains

HYDROCARBONS, C9, AROMATICS

Other information

### 2.3. Other hazards

SECTION 3: Composition/information on ingredients

#### 3.2. Mixtures

HYDROCARBONS, C9, AROMATICS		30-60
CAS number: 64742-95-6	EC number: 918-668-5	REACH registration number: 01-
		2119455851-35-0000
Classification	Classificatio	on (67/548/EEC or 1999/45/EC)
Flam. Liq. 3 - H226	Xn; R65. Xi; R37. N; R51/53. R10, R67	
STOT SE 3 - H335, H336		
Asp. Tox. 1 - H304		
Aguatic Chronic 2 - H411		

The Full Text for all R-Phrases and Hazard Statements are Displayed in Section 16.

#### Composition comments The data shown are in accordance with the latest EC Directives.

#### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

General information	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Never give anything by mouth to an unconscious person. Get medical attention if any discomfort continues.
Inhalation	Place unconscious person on their side in the recovery position and ensure breathing can take place. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Get medical attention if any discomfort continues.
Ingestion	Rinse mouth thoroughly with water. Give plenty of water to drink. Give milk instead of water if readily available. Keep affected person under observation. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention immediately. Show this Safety Data Sheet to the medical personnel.
Skin contact	Immediately remove contaminated clothing. Rinse immediately with plenty of water.
Eye contact	Remove any contact lenses and open eyelids wide apart. Rinse with water. Continue to rinse for at least 15 minutes. Get medical attention if irritation persists after washing.

## 4.2. Most important symptoms and effects, both acute and delayed

General information No data available on the mixture itself.

### 4.3. Indication of any immediate medical attention and special treatment needed Notes for the doctor Treat symptomatically. SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media Extinguish with the following media: Foam. Dry chemicals, sand, dolomite etc. 5.2. Special hazards arising from the substance or mixture Specific hazards The product is flammable. Hazardous combustion Thermal decomposition or combustion products may include the following substances: Toxic products gases or vapours. Carbon dioxide (CO2). Carbon monoxide (CO). 5.3. Advice for firefighters Move containers from fire area if it can be done without risk. Cool containers exposed to Protective actions during firefighting flames with water until well after the fire is out. Special protective equipment Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective for firefighters clothing SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Personal precautions Wear protective clothing as described in Section 8 of this safety data sheet. For non-emergency personnel Keep unnecessary and unprotected personnel away from the area. 6.2. Environmental precautions **Environmental precautions** Do not discharge into drains or watercourses or onto the ground. 6.3. Methods and material for containment and cleaning up Methods for cleaning up Keep combustible materials away from spillage. Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near spillage. Provide adequate ventilation. Absorb in vermiculite, dry sand or earth and place into containers. Wash thoroughly after dealing with a spillage. 6.4. Reference to other sections Reference to other sections For personal protection, see Section 8. For waste disposal, see Section 13. SECTION 7: Handling and storage 7.1. Precautions for safe handling Usage precautions Keep away from heat, sparks and open flame. Avoid spilling. Avoid contact with skin and eyes. Provide adequate ventilation. Avoid inhalation of vapours. Use approved respirator if air contamination is above an acceptable level. 7.2. Conditions for safe storage, including any incompatibilities Storage precautions Store in tightly-closed, original container in a dry, cool and well-ventilated place. Keep away from oxidising materials, heat and flames. Storage class Flammable liquid storage. 7.3. Specific end use(s) Specific end use(s) The identified uses for this product are detailed in Section 1.2. SECTION 8: Exposure controls/Personal protection

8.1. Control parameters	
Ingredient comments	WEL = Workplace Exposure Limits
	HYDROCARBONS, C9, AROMATICS (CAS: 64742-95-6)
DNEL	Workers - Dermal; Long term systemic effects: 25 mg/kg bw/day Workers - Oral; Long term systemic effects: 150 mg/m³ Consumer - Dermal; Long term systemic effects: 11 mg/kg bw/day Consumer - Inhalation; Long term : 32 mg/m³
8.2. Exposure controls	
Protective equipment	
Appropriate engineering controls	Provide adequate general and local exhaust ventilation.
Eye/face protection	If a risk assessment indicates eye contact is possible, suitable eye protection should be worn e.g. safety spectacles, safety goggles or a faceshield as appropriate. Personal protective equipment for eye and face protection should comply with European Standard EN166.
Hand protection	Use protective gloves. To protect hands from chemicals, gloves should comply with European Standard EN374. Gloves made from the following material may provide suitable chemical protection: Nitrile rubber; thickness 0.35mm minimum. Butyl Rubber; thickness 0.5mm minimum. Fluorinated rubber (Viton); thickness 0.4mm minimum. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. Glove thickness is not necessarily a good measure of glove resistance as the permeation rate will depend on the exact glove composition. The breakthrough time for any glove material may be different for different glove manufacturers. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected.
Other skin and body protection	Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapour contact.
Hygiene measures	Do not smoke in work area. Wash at the end of each work shift and before eating, smoking and using the toilet. Promptly remove any clothing that becomes contaminated. Wash promptly with soap and water if skin becomes contaminated. Use appropriate skin cream to prevent drying of skin. When using do not eat, drink or smoke.
Respiratory protection	No specific recommendations. Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. Store in a demarcated bunded area to prevent release to drains and/or watercourses. Keep container tightly sealed when not in use. Residues and empty containers should be taken care of as hazardous waste according to local and national provisions.
SECTION 9: Physical and ch	nemical properties

### 9.1. Information on basic physical and chemical properties

Appearance	Viscous liquid.
Colour	Red.

Odour	Characteristic.
Initial boiling point and range	130°C
Flash point	48°C
Upper/lower flammability or explosive limits	Lower flammable/explosive limit: 0.6% Upper flammable/explosive limit: 7.0%
Vapour pressure	Not available.
Relative density	1.00 - 1.05
Solubility(ies)	Immiscible with water.
Partition coefficient	No information available.
Viscosity	Kinematic viscosity > 20.5 mm²/s.
9.2. Other information	
Other information	No additional information
Volatile organic compound	This product contains a maximum VOC content of 520 g/l.
SECTION 10: Stability and rea	activity
10.1. Reactivity	
Reactivity	Flammable/combustible materials.
10.2. Chemical stability	
Stability	Stable at normal ambient temperatures.
10.3. Possibility of hazardous	reactions
Possibility of hazardous reactions	Under normal conditions of storage and use, no hazardous reactions will occur.
reactions	
reactions 10.4. Conditions to avoid Conditions to avoid	Under normal conditions of storage and use, no hazardous reactions will occur. Avoid heat, flames and other sources of ignition.
reactions <u>10.4. Conditions to avoid</u> Conditions to avoid <u>10.5. Incompatible materials</u>	Avoid heat, flames and other sources of ignition.
reactions <u>10.4. Conditions to avoid</u> Conditions to avoid <u>10.5. Incompatible materials</u> Materials to avoid	Avoid heat, flames and other sources of ignition. Avoid contact with the following materials: Acids. Oxidising agents.
reactions <u>10.4. Conditions to avoid</u> Conditions to avoid <u>10.5. Incompatible materials</u>	Avoid heat, flames and other sources of ignition. Avoid contact with the following materials: Acids. Oxidising agents.
reactions <u>10.4. Conditions to avoid</u> Conditions to avoid <u>10.5. Incompatible materials</u> Materials to avoid <u>10.6. reactions <u>10.4. Conditions to avoid</u> Conditions to avoid <u>10.5. Incompatible materials</u> Materials to avoid <u>10.6. Hazardous decomposition</u> products <u>SECTION 11: Toxicological in</u> <u>11.1. Information on toxicologi</u> General information	Avoid heat, flames and other sources of ignition. Avoid contact with the following materials: Acids. Oxidising agents. <b>on products</b> Fire creates: Toxic gases/vapours/fumes of: Carbon monoxide (CO). Carbon dioxide (CO2). <b>formation</b> <b>cal effects</b> Prolonged and repeated contact with solvents over a long period may lead to permanent health problems. Harmful by inhalation. Gas or vapour in high concentrations may irritate the respiratory

Eye contact	Irritating to eyes. Symptoms following overexposure may include the following: Redness. Pain.
SECTION 12: Ecological inform	mation
Ecotoxicity	The product contains a substance which is toxic to aquatic organisms and which may cause long-term adverse effects in the aquatic environment.
12.1. Toxicity	
Toxicity	No data on the mixture itself.
12.2. Persistence and degrada	ability
Persistence and degradability	The degradability of the product is not known.
12.3. Bioaccumulative potentia	
Bioaccumulative potential	No data available on bioaccumulation.
Partition coefficient	No information available.
12.4. Mobility in soil	
Mobility	No data available.
12.5. Results of PBT and vPvE	3 assessment
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.
12.6. Other adverse effects	
Other adverse effects	Not available.
SECTION 13: Disposal consid	erations
13.1. Waste treatment method	
General information	Waste should be treated as controlled waste. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
	— Waste should be treated as controlled waste. Dispose of waste to licensed waste disposal site
General information	Waste should be treated as controlled waste. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Containers should be thoroughly emptied before disposal because of the risk of an explosion. Absorb in vermiculite, dry sand or earth and place into containers. Dispose of waste via a licensed waste disposal contractor.
General information Disposal methods	Waste should be treated as controlled waste. ## SECTION 15: Regulatory information

## 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

UFI

UFI: JYMQ-X20F-H00T-F9D6

EU legislation	Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended). Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended).
Guidance	Workplace Exposure Limits EH40. 2018 Code of Practice for the Chemical Agents Regulations (HSA Ireland)

#### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

#### SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet	<ul> <li>WEL: Workplace Exposure Limit.</li> <li>ATE: Acute Toxicity Estimate.</li> <li>CAS: Chemical Abstracts Service.</li> <li>DMEL: Derived Minimal Effect Level.</li> <li>DNEL: Derived No Effect Level.</li> <li>OELV: Occupational Exposure Limit Value.</li> <li>PNEC: Predicted No Effect Concentration.</li> <li>PBT: Persistent, Bioaccumulative and Toxic substance.</li> <li>vPvB: Very Persistent and Very Bioaccumulative.</li> </ul>
Revision date	01/03/2019
Revision	3
Supersedes date	06/01/2016
SDS number	30563
Risk phrases in full	<ul> <li>R10 Flammable.</li> <li>R37 Irritating to respiratory system.</li> <li>R51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.</li> <li>R65 Harmful: may cause lung damage if swallowed.</li> <li>R67 Vapours may cause drowsiness and dizziness.</li> </ul>
Hazard statements in full	H226 Flammable liquid and vapour. H304 May be fatal if swallowed and enters airways. H335 May cause respiratory irritation. H336 May cause drowsiness or dizziness. H411 Toxic to aquatic life with long lasting effects.

The information in this SDS is based on the present state of our knowledge and meets the requirements of EU and national laws. The user's working conditions however, are beyond our knowledge and control. The product is not to be used for purposes other than those specified under section 1 without a written permission. It remains the responsibility of the user to ensure that the necessary steps are taken to meet the laws and regulations. Handling of the product may only be done by people above 18 years of age, who are satisfactorily informed of how to do the work, the hazardous properties and necessary safety precautions. The information given in this SDS is to describe the product only in terms of health and safety requirements and should not, therefore, be construed as guaranteeing specific properties.
