

PlastiKote Leaf Paint

Ord.-no.: 440.0027110.076, 440.0027111.076

Technical Information

Leaf is available in Silver and Gold. This can be used as an under-layer paint or as an accent. By spraying before applying the matt Chalk paint, when dry, the top layer of Chalk can be wiped back with a domestic pot scourer to reveal the Leaf below. This give an authentic aged look when wiped back from edges and mouldings where an antique piece of furniture might have worn.

Quality & properties

- Quick drying
- The product can also be used underneath PlastiKote Chalk Sprays to create a classic looking piece of furniture

Physical & chemical data

- Colourname:
 - ◊ Gold
 - ◊ Silver
- Surfaces: metal, glass, ceramics, stone, wood, paper, carton and many other surfaces
- Minimum Working Temperature: 15 °C
- Maximum Working Temperature: 25 °C

How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- The surface should be clean, dry and free of grease. Remove loose old lacquer and rust and sand the surface.
- The surface should be clean, dry and free of grease. The aerosol should have room temperature. Best processing temperature 10 to 25°C. Before use, shake the aerosol for 2 minutes and spray a sample. Distance to the surface to be treated approximately 25 to 30 centimeter.
- Apply the spray paint in several thin layers. Before applying the next layer, again shake the aerosol. When desired, after drying a primer and a lacquer can be applied.
- After use, clean the valve (turn aerosol upside down and press the nozzle for approximately 5 seconds).

Environmentally sound

MOTIP DUPLI is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling

All products made by MOTIP DUPLI comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

For any further technical questions call our hotline from Monday to Thursday from 9 h a.m. to 3 h p.m. or on Friday until 12 h p.m.

As of April 15, 2021 – This release replaces all eventually earlier issued versions.
