TECHNICAL DATA SHEET – Leather Care Div.

ULTRA RAPID LEATHER CLEANER

DESCRIPTION

Energetic detergent for the cleaning of pigmented leather and to remove difficult stains or engrained dirt.

HOW TO USE

Ultra Rapid Leather Cleaner is a very strong cleaner for pigmented leathers to remove difficult stains or engrained dirt in pigmented leathers that have accumulated in time on the leather's surface.

Pre-Test: Before using, test the colour fastness of the leather. Apply **Ultra Rapid Leather Cleaner** to a white cloth and gently rub the leather in a hidden area. Check that you are satisfied with the result and that there is no colour loss on the cloth.

Directions: First, try to clean the leather with **Leather Cleaner**. If the results are not satisfactory, use **Ultra Rapid Leather Cleaner** after having carried out the pre-test. Clean the leather with a vacuum cleaner using a soft brush. Shake the bottle well. Use gloves. Dampen a sponge with the product and pad the leather until the stain dissolves, constantly checking that there is no colour transfer.

In case of colour loss, discontinue use immediately. Do not rub aggressively!

Remove any residue of **Ultra Rapid Leather Cleaner** by using a clean lint-free cloth and clean with **Leather Cleaner**.

Leave to dry and then apply **Leather Protector**. It may be necessary to spray **Top Coat** if the leather has been rubbed too hard and in case there has been any colour loss.

PHYSICAL CONSTANTS	Standard Value	Test Method
Appearance	clear liquid colourless	MDA 008
pH	10.0 ± 1	MDA 004
Density (g/cm ³)	1.00 ± 0.05	MDA 018

STORAGE	Rev.
Non-dangerous product. Store between +5/40°C	04.2019

MINIMUM SHELF-LIFE – HANDLING INSTRUCTIONS

The product is guaranteed for its physical and quality characteristics 24 months from the date of production. It has to be kept in its original packaging, well sealed and stored following the conditions in our technical data.
