

## PRODUCT INFORMATION SHEET

### Polyester Liquid Resin

#### Description

NEW CATALYST SYSTEM – Activate with Tetrosyl hardener part No. EXH001

FOR PROFESSIONAL USE ONLY

#### Directions For Use

1. Clean surface
2. Key surface
3. Refer to application guide and mixing ratios.

Resin (g or ml)*	Hardener Paste (g or ml)*	Approx Working Time @ 20°C (minutes)
100	1	20
100	2	15
100	3	10
100	6	5 - 10

\*note 1 g/ml equates to approximately 10cm ribbon of hardener paste.

#### Important

Activate with Tetrosyl hardener paste (part no. EXN001). Do not exceed 6g/ml hardener per 100g/ml resin. Mix thoroughly. Ensure all the coloured hardener is dispersed. The more hardener paste used or the warmer the air temperature the faster the resin will set. The table gives an approximate indication of the working times with various amounts of hardener. Excess hardener can retard setting.

NOTE, Thin film thickness in conjunction with low temperatures will slow the cure. This is remedied by application of heat, or use of a thicker film. It is suggested the ambient temperature should be at least 10°C.

#### AVAILABILITY

1, 2.5 and 5 Litres

**Tetrostyl**

**DISCLAIMER**

This Product Information Sheet does not constitute to any extent a fitness for purpose warranty or a quality specification. It is intended to be indicative only of the general characteristics of the product(s) and may not be relied upon (in whole or in part) in substitution of nor as a supplement to any of the information and/or instructions and/or warnings set out on the product(s) and/or on any packaging and/or in the relevant Safety Data Sheet (which is available on request).

Neither of the publisher of this Product Information Sheet or the product(s) manufacturer accepts liability for the failure of any person to observe and follow the information and/or instructions and/or warnings on the product(s) and/or on any packaging and/or in the relevant Safety Data Sheet.

Any person selecting and using or causing the product(s) to be used for a specific purpose or any third party recommending the product(s) for a specific purpose without in either case first making all appropriate inquiries as to the suitability of the product(s) for the intended purpose does so at his/her/their own risk and no liability is accepted by the publisher or the product(s) manufacturer for any consequent loss, damage or injury, other than such liability as may not (by operation of law) be excluded.

This Product Information Sheet does not apply to the use of the product(s) in any combination or with other products or materials.

Users of a product or products marked "For Professional Use Only" are deemed to declare and acknowledge for themselves professional levels of skill, knowledge, competence and experience in the selection and use of such product(s).

Product Information Sheets are updated from time to time and inquiries should be made on a regular basis to ensure that this is the latest version available.
