

Insulating Paint...

THE REVOLUTIONARY INSULATION PRODUCT EVERYBODY'S TALKING ABOUT ... IS IN THE CAN!

Since Sep 2009 (including two of the worst winters on record) thousands of home owners have bought and used Warmcoat Insulating Paint with a 97% satisfaction rating.

Cuts Heat Loss Through Walls, Ceilings etc

- Thermal barrier blocks heat loss by up to 25%
- Increases average room temp by 3 degrees
- Improves U-Value by 12% on solid block wall!
- Saves on heating bills & carbon footprint.
- Works on ceilings & walls
- No loss of valuable room space
- Ideal for stairs / gable walls / extensions / dormers etc
- Rooms heat up faster and retain heat longer
- Superb for older homes / solid or cavity block walls
- Allows walls to breathe, ideal for period homes etc.
- The only 'Paint' that helps prevent heat loss from your home!

The Answer to Damp / Wet Walls and Toxic Mould

- Proven to reduce / eliminate wet / damp walls & associated mould problems. Walls etc not as cold to the touch resist formation of condensation from surrounding air resulting in environment suitable for mould growth being avoided.

Universal Fast & Easy Application.

- Use as an undercoat or as an off white finish
- Easy brush or roll on application like any high quality emulsion paint.
- Use behind or on top of wallpaper
- Paint any brand / colour on top to finish or tint.
- Ideal on cold concrete floors under floor boards or carpet
