

Product information | TECHNICAL DATA SHEET

WEPRO Multi-Purpose Paint. Metallic colors. The easiest spray paint to use for DIY projects and decoration *
400 ml.

GENERAL DESCRIPTION

Metallic-effect solvent-based multi-surface paint. Designed with cutting-edge technology that makes it easy to use, delivering professional-quality results for everyone.

CHARACTERISTICS

- Very fast-drying.
- Excellent coverage.
- Good adhesion.
- Easy application and recoating.
- No anti-corrosive properties.
- Bold metallic effect (chrome).
- Highly decorative.
- Recommended for indoor use. - Not resistant to rubbing or outdoor conditions.

INSTRUCTIONS FOR USE

- Shake the aerosol thoroughly before use, for about one minute after hearing the mixing ball.
- Apply to clean and dry surfaces. On rusted metal surfaces, first remove corrosion with a wire brush and apply an anti-rust primer if necessary.
- Apply in thin layers for the best results. Three thin coats are always better than one thick layer. Recoat after 10 minutes with the same paint.
- Turn the aerosol upside down to purge the valve after use. If the cap gets clogged, replace it with a new one.
- Do not apply to equipment or devices that are connected to an electricity supply, and use in well-ventilated areas.
- Request safety data sheets.
- This paint is not suitable for varnishing, as it would diminish the metallic effect.
- Its mechanical resistance is limited (the metallic pigment remains on the surface, making it sensitive to rubbing). For this reason, it is not advisable to apply it to surfaces that will be frequently handled, such as door handles, railings, automotive parts, etc.

PHYSICAL CHARACTERISTICS

Binder type:	Special resin
Color:	Gold, Silver, Copper
Touch-dry (ASTM D-1640 ISO 1517):	10'
Fully dry (ASTM D-1640 ISO 1517):	2 h
Coat thickness when dry (ASTM D-823 ISO 2808):	15 micras/layer
Theoretical coverage (continuous painting):	4.25 m ² for 400 ml aerosol
Thinner:	Aromatic mixture
Product shelf life:	(with proper storage) 6 years
Application conditions:	Minimum ambient temperature: 8°C Surface temperature: 5°C – 50°C Max. humidity 85% R.H.P
Paint heat resistance:	150°C

COLORS 3 colors

Silver EX014WM0101
Gold EX014WM0102
Copper EX014WM0103

APPLICATIONS

Ideal for DIY and professional projects on a variety of surfaces: wood, metal, stainless steel, glass, timber, ceramic, stone, paper, papier and hard plastic.

Specially designed for home decor and restoration projects and professional use: picture frames, candle holders, craft projects, touch-ups of metal structures, industrial or agricultural machinery.
